Dominion Finances.

As Union with Canada is rapidly approaching, it may not be amiss to familiarize ourselves with the financial as well as the political condition of the Dominion. The impression seems to be well-founded that with the expansion of the Dominion, new responsibilities will be imposed, and larger financial liabilities incurred. Its altered relations with Great Britain—the taking upon itself the expense of the defence of the country will entail a heavy annual outlay. The provision in the constitution for creating new Territorial Governments, digging canals, building railways, and subsidizing ocean steamships, seems likely to be used as often as the financial ability of the country will bear the strain of additional taxation. The whole tendency of events in the Dominion is towards higher taxes, a larger public debt, and a national system of protection for industry, in proportion to the financial burdens that the country may be called upon annually to bear. The great modern discovery in political economy of one generation borrowing, and the next and subsequent generations paying off the loan, is likely to be fully appreciated by Dominion statesmen. Taxation per head, in the Dominion, exclusive of provincial and municipal taxes, is now about $3 50, as against $9 50 in the United States, exclusive of State, county, and civic taxes. There is, therefore, a wide margin to fill before taxation in the Dominion will be as high as it is in the States. It is, however, very doubtful whether the Dominion could bear as high taxation as its southern neighbor. Before and during the early part of the recent war in the States, financiers, both American and European, doubted the ability of the United States to provide by taxation the means to meet the liabilities to be incurred by the Secession War. Being mainly an agricultural country, and the population widely distributed, its tax-paying capacity seemed to be less than such countries as England or France. The necessity, however, to provide "the sinews of war" proved that the United States could bear a rate of taxation approximating to the richest and most compact of European States. It is barely possible, therefore, that the Dominion may be able to bear far higher taxes than is generally supposed, or that her agricultural and sparsely settled population would seem to warrant. The natural increase of her population will add proportionately to her tax-bearing capacity, and provide a fulcrum on which the Finance Minister may rest his lever. The increase of population will, however, be likely to be too slow to meet the financial wants of the country, if the immediate construction of great public works, either for trade or defence, be deemed desirable. Hence, the more carefully the question is examined, the more forcibly one is impressed with the conviction that in a few years' time — within the next ten or fifteen years — Canada will be very deeply in debt, and her taxes, will in all probability, be doubled. The Inter-Colonial Railway will swallow up $20,000,000; the new loan for fortifications $5,000,000; and the purchase of the North West Territory, and the expenses incident to its government, may take another $5,000,000. Here then we have $30,000,000 added to the public debt as a mere consequence of Confederation, and the altered relations with Great Britain respecting the defences of the country. If we add to that a liability as a guarantee of interest on $100,000,000, for the construction of the Victoria and Montreal Railway within the next ten years, the indebtedness will be increased by the addition of $130,000,000. Possibly before ten years, $50,000,000 will be borrowed to improve the canal system of Canada, so as to draw the trade of the ever-increasing Great West of Central North America to an Atlantic seaport at the mouth of the St. Lawrence. Here then, by the time that our first locomotive shall have reached Montreal from Victoria, the debt of the Dominion will have been increased by the addition of $180,000,000, without taking into consideration the indebtedness necessary for defence. Of all this vast sum of money not the half will yield any direct pecuniary return equal to the interest. Yet there appears to be no escape from it, as it follows as a natural consequence from the grand undertaking of building up another British nation on the northern end of this continent, holding dominion from sea to sea. According to the return of Mr. Langton, the Auditor-General of the Dominion, last April, the gross debt was $105,766,878; assets in cash and bank accounts, $17,295,941; and the net debt, $88,470,937. If the actual public debt be added to the debts that will be likely to be incurred within the next ten years, the Public Debt of the Dominion at the end of that time will be from $200,000,000 to $250,000,000. The increase of taxation consequently seems to be a positive certainty in the Dominion.

Mr. Robson's Prevarications.

The *Colonist* of Oct. 30th, asserted that any further protection to farmers than that afforded by the Canadian Tariff could be attained by a landing permit. Then it added—"Now the fact of the matter is that *this is precisely the mode of protecting our agricultural interests* that was urged by the *present writer* (Mr. Robson) during the last session of the Legislative Council." Now it is a notorious fact that Mr. Robson never uttered a single word in the Council last session in favor of Harbor Dues; on the contrary he opposed it. When he went to Comox in order to deceive the farmers, he declared himself to be in favor of Harbor Dues and not before. Yesterday the *Colonist* attempted to extricate him from his muddle, but he only sunk the deeper in the mire; for it failed to show that he had advocated Harbor Dues in the last session of the Council, although it had previously asserted that he had. But the amusing part of the matter is, that after opposing bitterly the suggestion of the STANDARD to adopt the Canadian Tariff with Harbor Dues to protect the farmer, and after asserting that it was an attempt to interfere with the Terms of Confederation, that delectable sheet yesterday said; "The Harbor Dues scheme would not necessarily involve any change in the terms." It is some satisfaction at least to find that with all its evasiveness, prevarication, and double-and-twistedisms, we have forced Mr. Robson to admit our suggestion to be correct.

THE THEATRE.—Last night the theatre was well filled to witness the first performance of the Bella Bird Theatrical Troupe. The piece selected was the magnificent equestrian drama entitled "Mazeppa, or the Wild Horse of Tartary," in which Miss Leo Hudson, with her celebrated horse "Black Bess," takes the leading character, and sustains it to perfection. It is a thrilling sight to see Mazeppa tied to the horse's back and started off over the mountains. The scenery is beautiful and well prepared for the piece. Miss Annie Pixley has improved much since she was last on the boards of the Victoria Theatre, as has also her sister Minnie. Both of them were well received by the audience. Mrs. Bird took the character of Agatha, nurse of Olinski, (Miss Annie Pixley,) to perfection. Miss Eva West, although a stranger to Victoria, no doubt will be a great favorite ere long, as she is a good actress and a charming singer. Messrs. Melville, Thornton, Bird, Vincent, Dennis and Wallace all played their parts well. The troupe is a good one, and we hope that during their stay here they will receive the patronage which they deserve. To-night Mazeppa will be played again.

NEW WORKSHOP AND SAW-MILL.—Messrs. Hayward & Jenkinson commenced yesterday to build a large workshop and saw-mill on the vacant lot adjoining the lumber yard of Mr. W. P. Sayward. The saw-mill, when completed, will have greater facilities for sawing lumber than their present premises.

FUNERAL.—At 2 o'clock, yesterday afternoon the funeral of the late Nathaniel M. Hicks took place from the St. Andrew's Church, Courtnay street, and was largely attended by friends of the deceased. During the day the flag of the City Council was displayed at half-mast, out of respect.

THOSE MEASURES.—Mr. Robson told the Nanaimo electors that he had carried measures in the Council. Now, the electors need not believe such nonsense; for we defy Mr. Robson to mention a single measure that he originated and carried, except the scheme to destroy the Free School system.

QUITE TRUE.—Our statement that the movement in favor of a petition expressive of popular opinion on the terminus question, was due to Mr. J. G. Norris, has been denied by the *Colonist*. It is, nevertheless, quite true that Mr. Norris first suggested it.

THE NEWBERN.—By a private letter from Capt. Freeman, of the U. S. steamer Newbern, to a gentleman in this city, we learn that that vessel was about to sail from San Francisco on the 1st or 2d inst., for Sitka, via Victoria.

POLITICAL.—The latest political news from Cariboo is to the effect that Carrall and Walkem oppose each other, and that Mr. J. H. Todd is likely to be the lucky candidate, if he off

POLICE COURT.—M. Gunion was brought up in the Police Court yesterday morning and remanded for three days and in the meantime his own recognizance would be taken for his appearance. The magistrate advised him to get over to San Juan Island where his parents are. The small boy named Lambert who was charged with being a suspicious character was discharged with a caution.

Mr. Norris' Disclaimer.

EDITOR DAILY STANDARD:—Will you kindly allow me in the most emphatic manner to deny that directly or indirectly, have I borrowed an idea from Dr. Helmcken, respecting the Victoria-Nanaimo Railway, in connection with Confederation. But having had the pleasure of sitting with that gentleman for half an hour, and talking with him on last Sunday for half an hour, I think I am safe in claiming that I helped him to the amendment in his address with respect to the railway. With respect to the next charge in the *Colonist* of to-day, I justly feel indignant, as I never in my life before dreamt or accused myself of that weakness curly hair. My hair is straight. I brush it every morning, and find it straight still. I will be in my office to-morrow at 9 o'clock a. m., sharp, to convince the public that it is so. I am straight on Confederation; and I am also straight on the petition respecting the railway to Nanaimo; and I was also the suggestor of the petition as a dozen gentlemen can verify. The people will be straight, if they get the railway; and the people will also be straight if they vote for the men who advocate it; and the *Colonist* will be straight if it supports the measure. With humility,

J. G. NORRIS.

European Mail Summary.

There has lately been some experiments with the Gatling Mitrailleuse. A short time ago some excellent practice was made at ranges of over two thousand yards, when the larger weapon threw a half pound ball one hundred yards beyond the range, and made in two minutes 90 hits out of 238 shots at three rows of targets, thirty six feet long by nine feet high. This was not bad shooting, but the smaller improved gun did better. It threw ounce balls to the same distance, making no less than 165 hits in two minutes out of 348 fired......There is nothing known yet who is to have the vacant See of Honolulu There seems to be a doubt about the advisability of filling it......The Canadian Militia have deserved so well of the Mother Country that Her Majesty has been pleased to confer upon several of the officers the order of St. Michael and St. George......In Glasgow, Scotland £7000 has already been subscribed for the sick and wounded of the French army ......The feeling in Ireland is still one of sympathy, for the French reserves, and placards have been posted on the walls of Dublin calling for active help in the shape of recruits for an ambulance corps, to be devoted exclusively to the use of the French wounded. The call has met with a ready response......The Fenians think that the French Republic will favor their enterprise, and are loud in their support of the Republic. H. M. S. Triumph was launched on September 27th......Some members of the Irish Presbyterian Church have recently held an important conference at Belfast, to strengthen the hands of the committee of the Sustentation Fund for the support of the *Regium Donum*, in order to enable it to carry out the provisions of the assembly scheme, and to diffuse a spirit of increased liberty throughout the Church......The four-oared champion crew arrived in New Castle on October the 4th from Canada......The authorities have decided to introduce the small-bore mitrailleuse into the British service. Advantage has been taken of the presence of several leading politicians in attendance upon the British Association for the Advancement of Science, at Liverpool, to hold a meeting at the Chamber of Commerce, with the view to obtain an expression of opinion on the relations which should exist between the mother-country and her colonies. Sir Stafford Northcote took the chair, and among the speakers were Viscount Sandon, one of the local members, Viscount Milton, Sir J. Lubbock, Sir H. Barkly, the new Governor for the Cape; Mr. Westgarth, and Mr. A. C. Stewart, a local merchant of considerable colonial experience. One very strong and legitimate reason given why the colonists should maintain their connection with us was, that by the appointment of governors the mother-country facilitated enormously the internal forms of government in some of the colonies; ministerial responsibility, and the possession of the old country as an arbiter in international questions being found to be a great advantage. The doctrine that the colonies were a source of weakness to the mother-country was generally held to be a mistake. Lord Sandon congratulated the meeting upon the improved feeling with regard to the British colonies which was manifested by the Government and the Legislature. The guaranteeing of the loan to New Zealand had altered the whole question, and one great advantage of a meeting like the present was to contradict the impression that England had any intention to break up that great British Confedracy which was the source of so much pride and benefit to her. In the end a resolution was unanimously passed in favor of the relations between the mother-country and her colonies being maintained and improved ......The Right Hon. Robert Lowe, Chancellor of the Exchequer, was entertained at a public banquet at Elgin, in Scotland, on the 10th Sept......There is a rumor in England that H. M. S. Galatea is under immediate orders to return to England......The Queen has expressed to the widows and near relatives of the unfortunate suffers by the loss of the Captain, her deep sympathy with them in their affliction......The Empress of the French and the Prince Imperial are still at Hasting. The Emperor's horses were sold at Tattersalls a short time ago and realized 454 guineas.

The Very Latest.

TOURS, Oct. 31.—The journals announce that should the Prussians cut the communications with the north, the French war vessels would carry the mail to England.

The Germans around Paris are holding solemn religious services to-day. The bombardment of the city commences to-morrow.

A Versailles dispatch says that formal notice of the surrender of Metz was sent to Paris under flag of truce.

King William has announced his determination of immediately bombarding Paris. He considers that the enormous number of prisoners who must be subject to the privations of hunger and suffering, consequent upon a long siege, would be more mercifully dealt with by at once forcing an entry into Paris.

A large number of Prussian troops have reached the investing line to-day.

It is generally believed in London that Paris will offer determined resistance to the besiegers.

TOURS, Oct.—The military commandants of a great number of Departments telegraph to the Ministry here, expressing their utmost indignation at the surrender of Metz, and a determination to continue the war to the last extremity.

The agitation here is extreme, and contradictory rumors, circulating all day, contribute to the public anxiety, and some even assert that peace is signed, without any reference to the Tours Government, and that Bazaine has been acting in accordance with instructions from Napoleon, and that Changarnier, refusing to surrender, took command of the troops at Metz, and will cut his way out.

In nearly all the towns in the south and north of France, the National Guards and citizens have made an imposing demonstration in favor of the Republic.

The Government at Tours is in receipt of several memorials, numerously signed, in the adjacent Departments, denouncing Bazaine for the treasonable surrender of the best fortress in the nation.

Bazaine and staff reached Cassel on Monday, and Gens. Canrobert, McMahon, Leboeuf, Bardelles and Houpmann are hourly expected.

The *Times* has a telegram from Versailles, announcing that Thiers passed through on his way to Paris. The general impression in London is, that owing to Bazaine's surrender nothing will come of his negotiations.

The German authorities have given orders that soldiers from Alsace and Lorraine, who were captured before Metz, as well as those who may hereafter be taken, be separated from the other prisoners, as such will be regarded as Germans and not French.

A proposition of the Prussians for an armistice of 48 hours to facilitate elections, was instantly rejected by the Paris Government.

Gambetta has issued another proclamation to the army, intimating that the soldiers at Metz have protested against the cowardly capitulation of that place, and refuse to be bound by it.

TOURS, Nov. 1.—It is reported that Bourbaki has resigned the command of the army of the North. He found it impossible to stem the current of ill-favor shown him since the capitulation of Metz. Bazaine openly asserted that Bourbaki knew of his plans of surrender, and was a party to it, and only left Metz in advance to avoid the execration of his countrymen.

BERLIN, Nov 1.—The Empress Eugenie arrived at Wilhelmshohe, *incognito*, on Sunday afternoon. She visited the Emperor with Bazaine.

BRUSSELS, Nov. 1.—The *Independence Belge* to-day publishes a letter from Gen. Bayer, Bazaine's aid-de-camp, refuting Gambetta's charge of treason on the part of his superior. His letter concludes: "We capitulated to famine."

The Prussians entered Metz yesterday, the French having previously laid down their arms. The prisoners will go in small detachments to Germany. The people surrounding the forts, and all arms, flags, etc., therein, will remain undisturbed. The French officers pledged themselves in writing not to re-engage in the war, and they were allowed to retain their side-arms and baggage, in token of the courage shown in defense of the city.

The latest news from China is to the effect that the Government is pursuing a vacillating course relative to foreigners, and those at Tientsin are doubtful whether to leave or remain.

LONDON, Nov. 1.—Gambetta has issued a proclamation urging the people to wipe out the late dishonors.

The *Electeur Libse* prints a speech made by Favre on the 14th, saying that the Orleans Princes have an army of 150,000 men in the west of France.

A telegram from Brussels states that a courier is waiting at Cassel to bring to Versailles the result of a conference now proceeding at Wilhelmshohe, between Eugenie, the Emperor, and Bazaine.

A Versailles correspondent says that the effect of the winter is beginning to show itself in the army. The German losses from sickness amount to 2,000 per day.

The first batch of Americans left Paris on the 25th of October, and the rest followed on the 26th.

Bazaine's order of the day, announcing the capitulation of Metz, is published. It justifies the act and exhorts the troops to submission.

Admiral Fournichon refuses to sign any paper coming from Bazaine.

Dominion Mail Summary.

The Dominion parliament has again been prorogued until November 26th......Sir Francis Hincks has gone before his constituents in North Renfrew.....Halifax is envious of the fame of Lachine in aquatics, and proposes to invite the youth of the world to a grand contest for glory and dollars next summer. Hither, it is expected, the high prizes and the chance of winning fresh laurels will entice the Tyne men; and here also may come champion Americans and athletic Canadians. After winning great renown at the St. Clair Flats, the Hon. Mr. Langevin has swept around towards Rondeau, where he is to survey the site of the long-talked-of harbor of refuge, and thence to the consideration of the promised improvement of the Welland Canal. The new cut was to be taken, and remembering that Canada expected every man—not excepting a Minister of Public Works—to do his duty, he "piped the main brace," cleared the decks for action, and steamed the gunboat Prince Alfred, under skillful guidance, down among the Americans, who retired in good order, fighting nobly......Very sad accounts have been received at St. John's of the destructive effects of the great storm that visited the coast on the 12th ult. In those harbors that were exposed to the hurricane scarcely a fishing boat has been spared—all were sunk or dashed to pieces against the rocks. The ship Pericles, belonging to the Allan Steamship Company, on a voyage from Quebec to Glasgow, was caught in the gale and turned keel up. Having lost her masts she again righted, half filled with water, but being timber laden she kept afloat. The crew lashed themselves to the poop, but six poor fellows were washed off......The cause of Confederation in Newfoundland has obtained a decided victory in the return of John Warren, Esq., for the District of Trinity Bay......His Excellency the Governor General of Canada attended the opening of the Deaf and Dumb Asylum at Belleville, on Thursday, the 20th of October.........The funeral of the late Catholic Bishop of Quebec took place on the 18th October, and was very largely attended. After several days' search Capt. Armstrong has returned to Ottawa, and reported that he found the channel from Montreal to Quebec twenty feet deep, the existence of which was disputed......The Governor General was formally addressed by the Mayor and a deputation of the Montreal City Council, at the St. Lawrence Hall, on the 17th October, and congratulated upon his elevation to the Peerage. His Excellency replied, and remarked that he would remain simply Sir John Young until he had received his patent of nobility......The released Fenians have been serenaded at Auburn by a large number of their joyful brethren.......The Newfoundland Government and Earl Kimberley have been continuing the correspondence relating to the withdrawal of the garrison from St. John's. The Colonial Secretary does not withdraw from the position taken by his predecessor in this matter. Disappointed in this the Newfoundlanders meekly requested the favor of having British gunboats in the harbor of St. John's, but the hard-hearted Admiralty refused even this small boon, though they were gracious enough to promise that a vessel of war might enliven the bay now and then......There is to be an Immigration Convention held shortly at Ottawa.

The Belles of Rome.

So expensive were the girls of Rome that Julis Cæsar was induced to offer premiums in encouragement of marriage. He allowed married women to dress more superbly than the unmarried, and to drive in costlier carriages; and he relieved of various taxes the man who was father of three children. The distinction of dress was gradually obliterated under the Emperors, but the privileges of the *nostrum genitor trium* seems rather to have increased, since he had a right to the best seats in the public games, and was more readily admitted to official positions.

Roman ladies were ahead of our American girls; "Gelidum callo nectit Glacilla draconem," says Martial. Yes, Glacilla wore around her beautiful neck a gold serpent; nor was she alone in this habit. Seneca, Lucian, Pliny, bear witness that the girls of Rome wore living snakes around their necks, and cherished them in their bosoms. They seem to have found them pleasantly cool. Will any model girl of the period set this fashion in midsummer? Pleasant for the eager lover to approach within osculating distance, and to find the glossy eyes of a snake fixed on him, its forked tongue quivering near him! This kind of partnership between Eve and her tempter is not altogether desirable.

CONGREGATIONALISM IN OREGON.—At the last annual meeting of Congregationalists in Oregon, it was ascertained that their body numbered 465 members, who contributed, for the support of pastors, $4,897 50, and for other objects $2,677 80.

THE FASHIONS.—A first-class dress and mantle-maker arrived from London by the California, to take charge of these departments, which will be commenced at London House on Sept. 19th. *

TIGHT BINDING

TO THE ELECTORS OF THE CITY OF VICTORIA.

GENTLEMEN:—An idea of duty prompts me on this occasion to solicit a continuance of your trust.

The proposition to make British Columbia in future an integral portion of the Dominion of Canada has been reduced to a series of definite "Terms of Union." Upon the electors now rests the grave responsibility of determing whether those terms are suitable, sufficient, and calculated to promote the progress and prosperity of British Columbia hereafter, and whether they will become partners in the weal or woe of Canada, and if the answer be in the affirmative, of leading her to and becoming part of her, Destiny and Future.

If the choice of a Tariff be, as at present, a mere election either of that of Canada or that of British Columbia as either exists, I must, in order to coincide with you, choose that of Canada; but, at the same time, I fear that when the Canadian Tariff and Excise Law are put in force much injury will accrue there from to our farming, brewing and other producing interests. The inducements to settle upon, clear and cultivate our lands will, at least, be diminished, and the benefits arising from the Union will neither be so great nor so pure as they ought and might be made, and probably are by many expected to be.

There may, however, be even yet an atom of hope that before the terms of Union are disposed of, certain amendments of the Tariff will be allowed; in that case I ask for discretionary power to use that or other concession for the purpose of preventing as far as possible, the injury likely to accrue to our farming and some industrial interests from the forthcoming revolution, and of making the projected public works the means of building up and strengthening our own beautiful country and the Dominion, instead of serving that purpose for a jealous rival. No alteration of the terms will be required for this purpose. I need scarcely add that the prosperity of Victoria and that of our producing interests are intimately connected and in some measure dependent upon each other.

The substitution of a purely representative and responsible for the present form of Government may be regarded as one of the consequences of Confederation.

The determination of the site for the Terminus of the Canadian Pacific Railroad must depend very much upon the objects the Canadian Government have in view in undertaking such a gigantic work; the cost and practicability of the various routes, the advantages of each for the purpose required. It is probable that the main object may be the acquisition of an easy, short and expeditious route to China and the East through British Territory, for the purpose, among others, of British and European commerce; Secondly, for domestic uses, such as the settlement of the country, rapidity of communication, defence and various others. For the purposes of commerce the Railway must have its terminus at some good seaport convenient to the Pacific Ocean and superior to that of its rival—the North Pacific Railway. Vancouver Island possesses such sea ports and is in reality the "seaboard of British Columbia." The precise locality of the Terminus, however, must in reality be settled after the scientific survey shall have been completed. The subject is of much importance and naturally causes considerable interest and concern; but it is hoped the friends of Union will take care to see Vancouver Island protected in this particular and thus prevent it becoming a cause of hostility or hindrance to Confederation.

It is but natural that unavoidable, impending and radical organic changes, the effect of which upon units cannot be clearly forseen, should create in many a feeling of dread and distrust of the future. That the effect of Confederation will be advantageous to some persons, places and interests, and inimical and confusing to others, is more than probable; but taking the country generally, its present condition and Terms of Union combined, simultaneously into consideration, Union seems calculated to be beneficial to the country, considered as a whole, if not immediately, at least in the not distant future.

Hoping to retain your confidence and support, believe me yours, &c.,

If after the necessary surveys for the purpose of the railway shall have been made, it be found impracticable to carry it to and make it terminate in Vancouver Island, then in that case a Railway shall be buitl from Victoria and Esquimalt to Nanaimo, upon the same terms and conditions as the other portion of the Railway."

To the Electors of the District of Victoria City.

GENTLEMEN,—At the request of a large number of electors I offer myself as one of your representatives in the next Legislative Council, where our political destiny is to be chosen. At such a crisis in our history, it is specially important that you should elect members who will faithfully and fearlessly represent your wishes. The following is a brief outline of the views which I am prepared to advocate.

Confederation with the Dominion of Canada is a policy upon which we all agree; and I am in favor of accepting the terms, as a whole, as agreed upon by our delegates with the Dominion Government.

I recommend the immediate acceptance of the Canadian Tariff, believing it to be materially in the interests of the people of the Colony.

If it should be found practicable to make Victoria the terminus of the Railway, I would use every effort to secure that desirable end and, if necessary, advocate a special concession for the purpose

Responsible Government is the only system which can satisfy a free people; and I shall support its immediate adoption.

As to the very important and interesting question of education, I believe it to be the duty, as well as the interest of the State to provide for the education of its children, and that non-sectarian schools adequate to the purpose ought to be established and maintained, and an efficient staff of teachers paid, by the Government out of the general revenue of the country

A tax upon unimproved lands shall have my warmest support.

A supply of wholesome water for the city is urgently required; and I will support any practical measure to secure it

My interests are identical with yours. I earnestly desire to see this city, and the magnificent country of which it is the capital, prosperous and progressive; and if you elect me as one of your members, I will use my best exertions to secure that result.

I intend to take an early opportunity of personally explaining to you my political views, and am, gentlemen,

Your obedient servant,
J. W. CAREY.

VICTORIA, Oct. 18th, 1870.

To the Electors of the City of Victoria.

GENTLEMEN:—

At the request of many friends I beg to offer myself as a Candidate for your Suffrages as one of the Representatives in the next Council.

On the most important question of the day—Confederation—We cannot but agree. I think the Terms as negotiated with the Dominion Government are of a most liberal character; but at the same time, I intend to use every available effort, if an opportunity should present itself towards bringing the Terminus of the Canadian Pacific Railway as near the Capital of British Columbia as may be practicable.

The Government Grants for the purpose of non sectarian Education should be largely increased; and the system placed on a more substantial and liberal basis.

Increased representation and Responsible Government I will strenously advocate.

I am of opinion that the Canadian Tariff should be at once accepted as being the means of lightening individual Taxation and tending to increase our commerce.

In Conclusion I may add that whilst the general wants of the whole Colony will ever be my study—your peculiar requirements will have my special attention.

I have the honor to be gentlemen

For 24 years I suffered with neuralgia on the brain, which baffled the skill of three first-class American physicians. Latterly bronchitis attacked my right lung, and my eyes became awfully inflamed. MAGIC SOAP.

Directions for Using Robinson's Magic Soap for doing a Large Family Washing in Two Hours, of Five or Six Dozen Pieces.

1. Cut up fine a bar of the Soap, and put one-half of it into your boiler with sufficient water to cover well your white clothes to be washed, and let the Soap dissolve; then put your clothes in, stirring them, and let them just come to a boil; then pour out clothes and water into a tub and let them soak twenty or thirty minutes, stirring them round in the tub occasionally to loosen the dirt. Such articles as collars, wristbands or any article very dirty, should be rubbed through the hands a little while soaking in order to thoroughly loosen the dirt before boiling.

2. While your clothes are soaking put the other half of your cut Soap into your boiler, with sufficient clean water to boil, and let it be heating. After your clothes have soaked wring them out well and put into your boiling water, and let boil from 5 to 10 minutes; then rinse, blue and hang out to dry. If the above directions are followed, we will guarantee your clothes clean and white.

3. For your colored and woollen clothes use the same water you soaked and boil your white clothes with, only heating it up again, and pour it over your colored and woollen clothes, and let soak the same as your white clothes, also rubbing them through your hands while soaking, if very dirty. Then rinse in clear water, warm as your hands will bear, and you will thus accomplish a large washing in two hours

By cutting up a bar of this Soap into two gallons water, and let boil until thoroughly dissolved, and then leave to cool, you will have two gallons of beautiful SOFT SOAP, as good as Common Soap for general house purposes.

TO THE ELECTORS OF THE CITY OF VICTORIA.

GENTLEMEN :—An idea of duty prompts me on this occasion to solicit a continuance of your trust.

The proposition to make British Columbia in future an integral portion of the Dominion of Canada has been reduced to a series of definite "Terms of Union," Upon the electors now rests the grave responsibility of determing whether those terms are suitable, sufficient, and calculated to promote the progress and prosperity of British Columbia hereafter, and whether they will become partners in the weal or woe of Canada, and if the answer be in the affirmative, of leading her to and becoming part of her Destiny and Future.

If the choice of a Tariff be, as at present, a mere election either of that of Canada or that of British Columbia as either exists, I must, in order to coincide with you, choose that of Canada; but, at the same time, I fear that when the Canadian Tariff and Excise Law are put in force much injury will accrue there from to our farming, brewing and other producing interests. The inducements to settle upon, clear and cultivate our lands will, at least, be diminished, and the benefits arising from the Union will neither be so great nor so pure as they ought and might be made, and probably are by many expected to be.

There may, however, be even yet an atom of hope that before the terms of Union are disposed of, certain amendments of the Tariff will be allowed; in that case I ask for discretionary power to use that or other concession for the purpose of preventing as far as possible, the injury likely to accrue to our farming and some industrial interests from the forthcoming revolution, and of making the projected public works the means of building up and strengthening our own beautiful country and the Dominion, instead of serving that purpose for a jealous rival. No alteration of the terms will be required for this purpose. I need scarcely add that the prosperity of Victoria and that of our producing interests are intimately connected and in some measure dependent upon each other.

The substitution of a purely representative and responsible for the present form of Government may be regarded as one of the consequences of Confederation.

The determination of the site for the Terminus of the Canadian Pacific Railroad must depend very much upon the objects the Canadian Government have in view in undertaking such a gigantic work; the cost and practicability of the various routes, the advantages of each for the purpose required. It is probable that the main object may be the acquisition of an easy, short and expeditious route to China and the East through British Territory, for the purpose, among others, of British and European commerce; Secondly, for domestic uses, such as the settlement of the country, rapidity of communication, defence and various others. For the purposes of commerce the Railway must have its terminus at some good seaport convenient to the Pacific Ocean and superior to that of its rival —the North Pacific Railway. Vancouver Island possesses such sea ports and is in reality the "seaboard of British Columbia." The precise locality of the Terminus, however, must in reality be settled after the scientific survey shall have been completed. The subject is of much importance and naturally causes considerable interest and concern; but it is hoped the friends of Union will take care to see Vancouver Island protected in this particular and thus prevent it becoming a cause of hostility or hindrance to Confederation.

It is but natural that unavoidable, impending and radical organic changes, the effect of which upon units cannot be clearly forseen, should create in many a feeling of dread and distrust of the future. That the effect of Confederation will be advantageous to some persons, places and interests, and inimical and confusing to others, is more than probable; but taking the country generally, its present condition and Terms of Union combined, simultaneously into consideration, Union seems calculated to be beneficial to the country, considered as a whole, if not immediately, at least in the not distant future.

Hoping to retain your confidence and support, believe me yours, &c.,

"If after the necessary surveys for the purpose of the railway shall have been made, it be found impracticable to carry it to and make it terminate in Vancouver Island, then in that case a Railway shall be built from Victoria and Esquimalt to Nanaimo, upon the same terms and conditions as the other portion of the Railway."

To the Electors of the District of Victoria City.

GENTLEMEN,—At the request of a large number of electors I offer myself as one of your representatives in the next Legislative Council, where our political destiny is to be chosen. At such a crisis in our history, it is specially important that you should elect members who will faithfully and fearlessly represent your wishes. The following is a brief outline of the views which I am prepared to advocate.

Confederation with the Dominion of Canada is a policy upon which we all agree; and I am in favor of accepting the terms, as a whole, as agreed upon by our delegates with the Dominion Government.

I recommend the immediate acceptance of the Canadian Tariff, believing it to be materially in the interests of the people of the Colony.

If it should be found practicable to make Victoria the terminus of the Railway, I would use every effort to secure that desirable end and, if necessary, advocate a special concession for the purpose

Responsible Government is the only system which can satisfy a free people; and I shall support its immediate adoption.

As to the very important and interesting question of education, I believe it to be the duty, as well as the interest of the State to provide for the education of its children, and that non-sectarian schools adequate to the purpose ought to be established and maintained, and an efficient staff of teachers paid, by the Government out of the general revenue of the country

A tax upon unimproved lands shall have my warmest support.

A supply of wholesome water for the city is urgently required; and I will support any practical measure to secure it

My interests are identical with yours. I earnestly desire to see this city, and the magnificent country of which it is the capital, prosperous and progressive; and if you elect me as one of your members, I will use my best exertions to secure that result.

I intend to take an early opportunity of personally explaining to you my political views, and am, gentlemen,

Your obedient servant,
J. W. CAREY.

VICTORIA, Oct. 18th, 1870.

To the Electors of the City of Victoria.

GENTLEMEN:—

At the request of many friends I beg to offer myself as a Candidate for your Suffrages as one of the Representatives in the next Council.

On the most important question of the day—Confederation—We cannot but agree. I think the Terms as negotiated with the Dominion Government are of a most liberal character; but at the same time, I intend to use every available effort, if an opportunity should present itself towards bringing the Terminus of the Canadian Pacific Railway as near the Capital of British Columbia as may be practicable.

The Government Grants for the purpose of non sectarian Education should be largely increased; and the system placed on a more substantial and liberal basis.

Increased representation and Responsible Government I will strenuously advocate.

I am of opinion that the Canadian Tariff should be at once accepted as being the means of lightening individual Taxation and tending to increase our commerce.

In Conclusion I may add that whilst the general wants of the whole Colony will ever be my study—your peculiar requirements will have my special attention.

I have the honor to be gentlemen
Your most obed't servant

DR. CHING FUN—A CARD—EDITOR STANDARD:—Through the medium of your paper I want to state the very great good that has been done me by Dr. Ching Fun of this city, nxet door Kwong Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skull of three first-class American physicians. Latterly bronchitis attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr. Ching Fun, and after five months treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit him and find relief, Respectfully,

MAGIC SOAP.

Directions for Using Robinson's Magic Soap for doing a Large Family Washing in Two Hours, of Five or Six Dozen Pieces.

1. Cut up fine a bar of the Soap, and put one-half of it into your boiler with sufficient water to cover well your white clothes to be washed, and let the Soap dissolve; then put your clothes in, stirring them, and let them just come to a boil; then pour out clothes and water into a tub and let them soak twenty or thirty minutes, stirring them round in the tub occasionally to loosen the dirt. Such articles as collars, wristbands or any article very dirty, should be rubbed through the hands a little while soaking in order to thoroughly loosen the dirt before boiling.

2. While your clothes are soaking put the other half of your cut Soap into your boiler, with sufficient clean water to boil, and let it be heating. After your clothes have soaked wring them out well and put into your boiling water, and let boil from 5 to 10 minutes; then rinse, blue and hang out to dry. If the above directions are followed, we will guarantee your clothes clean and white.

3. For your colored and woollen clothes use the same water you soaked and boil your white clothes with, only heating it up again, and pour it over your colored and woollen clothes, and let soak the same as your white clothes, also rubbing them through your hands while soaking, if very dirty. Then rinse in clear water, warm as your hands will bear, and you will thus accomplish a large washing in two hours

By putting up a bar of this Soap into two gallons water, and let boil until thoroughly dissolved, and then leave to cool, you will have two gallons of beautiful SOFT SOAP, as good as Common Soap for general house purposes.
